

Digital Passport is a brand new online learning platform from Common Sense Media. It is a web-based, interactive learning tool that teaches and tests the basics of digital life for kids in 4 through 5th grade. Digital Passport is open now for schools to use the beta version this spring. Topics covered include:

- Cyberbullying
- Privacy
- Digital communication
- Creative credit
- And search

You'll find lots of supporting materials to expand the learning through collaborative classroom activities, and rich reporting to track student success.

FREE to ALL schools thanks to generous support from CSM sponsors.
